Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NSPS for Commercial and Industrial Solid Waste Incineration (CISWI) Units (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), NSPS for Commercial and Industrial Solid Waste Incineration (CISWI) Units (EPA ICR Number 1926.09, OMB Control Number 2060-0450), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through January 31, 2023. Public comments were previously requested, via the *Federal Register*, on July 22, 2022 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may neither conduct nor sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before [INSERT DATE 30 DAYS AFTER PUBLICATION IN THE FEDERAL REGISTER].

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OAR-2022-0024, to: (1) EPA online using <https://www.regulations.gov/> (our preferred method), or by email to docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave., NW, Washington, DC 20460; and (2) OMB's Office of Information and Regulatory Affairs using the interface at: <https://www.reginfo.gov/public/do/PRAMain>. Find this specific information collection by selecting "Currently under Review – Open for Public Comments" or by using the search

function.

The EPA's policy is that all comments received will be included in the public docket without change, including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT: Muntasir Ali, Sector Policies and Program Division (D243-05), Office of Air Quality Planning and Standards, U.S. Environmental Protection Agency, Research Triangle Park, North Carolina, 27711; telephone number: (919) 541-0833; email address: ali.muntasir@epa.gov.

SUPPLEMENTARY INFORMATION: Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at either <https://www.regulations.gov>, or in person, at the EPA Docket Center, WJC West Building, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit: <http://www.epa.gov/dockets>.

Abstract: The New Source Performance Standards (NSPS) for the regulations published at 40 CFR part 60, Subpart CCCC apply to either owners or operators of a combustion device used to combust commercial and industrial waste, and that meet either of the following two criteria: 1) began construction either on or after December 31, 1999; or 2) began either reconstruction or modification either on or after June 1, 2001. Commercial and industrial waste is a solid waste combusted in an enclosed device using controlled-flame combustion without energy recovery, which is a distinct operating unit of any commercial or industrial facility, including field-erected, modular, and custom-built incineration units operating with starved or excess air, or solid waste combusted in an air curtain incinerator without energy recovery that is a distinct operating unit of any commercial or industrial facility. In general, all NSPS standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They

are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to the NSPS.

Form Numbers: None.

Respondents/affected entities: Owners and operators of CISWI units that are subject to the year 2000 standards.

Respondent's obligation to respond: Mandatory (40 CFR Part 60, Subpart CCCC).

Estimated number of respondents: 13 (total).

Frequency of response: Annually, semiannually.

Total estimated burden: 2,800 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$512,000 (per year), which includes \$176,000 in annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: There is an adjustment decrease in the total estimated burden as currently identified in the OMB Inventory of Approved Burdens. This decrease in burden is not due to any program changes. Instead, the decrease is due to a decrease in the number of respondents to reflect facility closures. There is also a decrease in Capital/Startup and Operation and Maintenance costs due to a decrease in the number of sources.

Courtney Kerwin,
Director, Regulatory Support Division.
